IMS Monitoring Gateway Weatherproof Enclosure

Technical Specification

1. Product Introduction

All-In One Weatherproof Enclosure.

Enclosure come with PUSR Industrial Edge Gateway (M-300) and High-Frequency

2. Product Features

- PUSR M-300 with Dual Core professor with ultra-high performance, the main frequency is up to 1.2Ghz, providing high-performance processing resources for edge computing.
- PUSR M-300 Widely used in various industries intelligent solutions.
- KLM9804 / 08 signaling RFID system.

3. Material List

- One Set of PUSR M-300 Industrial Edge Gateway.
- One Set of Kaile KLM9804 (4 Way) or KLM9808 (8 Way) High-Frequency Antenna Receiver
- One Set of AC-DC 24VDC Converter.
- One Set of 6A Protection Fuse

4. Application
